Preface
This user manual provides step-by-step instruction about operational guideline of mHealth System. mHealth System has been developed to increase operational efficiency and improve the quality of healthcare service.

Objective
The objective is to develop clear understanding of mHealth system usage for day-to-day operations. Each section begins with an overview then presents step-by-step details of how to perform a particular task, which will help the users finding information quickly and recall things faster.

Audience
This guide is primarily directed to the Community Health Worker (CHW) and their direct supervising authority. It is also helpful to helpdesk executives or system support personnel. It assumes that the user has a basic working knowledge of Android Mobile Phone operating system and Community based healthcare Program. Experience in similar software is helpful but not required.

How to Use This Guide
For the users approaching mHealth for the first time, this guide is best read linearly. You can have clearer understanding if you spend a few times reading this manual together with operating the mHealth application.

Special Features
Each chapter begins with a summary of features it covers, as in the following example. Bold faces are used to distinguish user interface (screen) and button names. Italics are used to attract special attention to important terms.

For More Information
The most current update of this guide will be available at the Application Development unit of Friendship Bangladesh. For more information on any topic, please do not hesitate to contact us through email.
Best wishes in exploring this guide and mHealth System.
Friendship mHealth System

Chapter objectives

After studying this chapter, we should be able to:

- How to access HPV swab collection
- How to finish HPV swab collection

1. HPV Swab Collection

Ensure cervical cancer screening service before providing this service. Generally, the FCM collects HPV swabs from the beneficiary on a predetermined day. In case any complicated symptom of the beneficiary is observed during the screening, the swab of the beneficiary should be sent to the specified referral center.

1.1 How to access HPV swab collection service

Access the HPV Swab Collection service by following the steps below.

Homepage → Health service and registration → Gynecological → HPV swab collection

2. Start HPV Swab Collection Service

Access the HPV Swab Collection service, select the expected beneficiary, and complete the service step-by-step.

Step 1: Status of HPV swab collection.

<table>
<thead>
<tr>
<th>Status of the HPV swab collection</th>
</tr>
</thead>
<tbody>
<tr>
<td>Done/performed</td>
</tr>
<tr>
<td>Not done/ not performed</td>
</tr>
<tr>
<td>Incomplete previous test</td>
</tr>
</tbody>
</table>
