Preface

This user manual provides step-by-step instruction about operational guideline of mHealth System. mHealth System has been developed to increase operational efficiency and improve the quality of healthcare service.

Objective

The objective is to develop clear understanding of mHealth system usage for day-to-day operations. Each section begins with an overview then presents step-by-step details of how to perform a particular task, which will help the users finding information quickly and recall things faster.

Audience

This guide is primarily directed to the Community Health Worker (CHW) and their direct supervising authority. It is also helpful to helpdesk executives or system support personnel. It assumes that the user has a basic working knowledge of Android Mobile Phone operating system and Community based healthcare Program. Experience in similar software is helpful but not required.

How to Use This Guide

For the users approaching mHealth for the first time, this guide is best read linearly. You can have clearer understanding if you spend a few times reading this manual together with operating the mHealth application.

Special Features

Each chapter begins with a summary of features it covers, as in the following example. Bold faces are used to distinguish user interface (screen) and button names. Italics are used to attract special attention to important terms.

For More Information

The most current update of this guide will be available at the Application Development unit of Friendship Bangladesh. For more information on any topic, please do not hesitate to contact us through email. 

Best wishes in exploring this guide and mHealth System.

Chapter objectives

- After studying this chapter, we should be able to:
  - How to access HPV test result update
  - How to finish HPV test result update

1. HPV Test Result Update

Must Ensure email confirmation regarding HPV test result of that beneficiary who is getting now this service. An email will send to authorized person from FrndShipNGO containing outreach number, test result, test date and lab test result just after updating the test result by the lab technician at lab.

After a clear and confirmed information regarding test result of a specific beneficiary, then a VHT can provide this service to that beneficiary.

1.1 How to access HPV test result update

Access the HPV test result update by following the steps below.

Homepage → Health service and registration → Gynecological → HPV test result update

2. Start HPV Test Result Update Service

Access HPV test result update, select expected beneficiary and complete the service following step by step.

Step 1: Select HPV test result of this beneficiary.
If chosen ‘HPV +ve’ then follow step 2, if chosen ‘HPV -ve’ then follow step-4, otherwise, follow step-5.

**Step 2:** Refer HPV +ve patient to a specific referral center for via test.

<table>
<thead>
<tr>
<th>Referral center for HPV +ve woman</th>
</tr>
</thead>
<tbody>
<tr>
<td>Birembo HC III</td>
</tr>
<tr>
<td>Kisengwe HC III</td>
</tr>
<tr>
<td>Kitaihuka HC III</td>
</tr>
<tr>
<td>Masaika HC III</td>
</tr>
<tr>
<td>Mpasana HC III</td>
</tr>
</tbody>
</table>

**Step 3:** Set the service date in that day the beneficiary is willing to receive treatment.

<table>
<thead>
<tr>
<th>Service date in referral center for HPV +ve woman</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dec 15 2022</td>
</tr>
</tbody>
</table>

**Step 4:** The next follow up date before the referral or service date (for reminding of the beneficiary by VHT). Then follow step-6.

<table>
<thead>
<tr>
<th>The next follow up date before the referral date (for reminding of the beneficiary by CHW/project member/VHT)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Dec 12 2022</td>
</tr>
</tbody>
</table>
